## Career Objective

Enthusiastic Computer Science and Engineering student with skills in HTML, CSS, JavaScript, SQL, and modern web technologies. Passionate about Frontend and Full Stack Web Development, with a strong interest in building responsive and user-friendly web applications. Eager to contribute to real-world projects, learn emerging technologies, and grow as a software developer while supporting organizational success.

## Education

|                                                    |                   |
|----------------------------------------------------|-------------------|
| <b>Bachelor of Engineering in Computer Science</b> | Sep 2023–May 2027 |
| P.S.R Engineering College, Sivakasi, Tamil Nadu    | CGPA: 7.6/10      |
| <b>Higher Secondary Certificate (HSC)</b>          | 2022              |
| PACM Boys Higher Secondary School, Rajapalayam     | 72%               |

## Skills

### Technical Skills

- Web Development: Full Stack Development, Responsive Web Design, Frontend Development
- Programming Languages: HTML, CSS, JavaScript, Python
- Tools: GitHub, VS Code, Jupiter Ed

### Soft Skills

- Problem Solving, Analytical Thinking
- Communication, Team Collaboration
- Attention to Detail, Critical Thinking

## Internship Experience

|                                                                                                                                                                                                                                                                                                                 |          |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| <b>College Website Development Front-End — Portalam</b>                                                                                                                                                                                                                                                         | Jan 2025 |
| <ul style="list-style-type: none"><li>• Learned frontend web development using HTML, CSS, JavaScript, and Bootstrap</li><li>• Implemented website layouts, navigation menus, and interactive UI components</li><li>• Developed responsive and user-friendly web pages for different screen sizes.</li></ul>     |          |
| <b>Data Analyst Intern — Aram Analytics</b>                                                                                                                                                                                                                                                                     | Nov 2025 |
| <ul style="list-style-type: none"><li>• Learned fundamentals of data analysis and data visualization using Excel and Power BI.</li><li>• Generated dashboards and reports to extract meaningful business insights.</li><li>• Performed data cleaning, data processing, and basic data interpretation.</li></ul> |          |

## Projects

|                                                                                                                                                                                                                                                                                                                                                                                         |          |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| <b>Cafe Management System</b>                                                                                                                                                                                                                                                                                                                                                           | Jun 2025 |
| <ul style="list-style-type: none"><li>• Designed and developed a responsive Cafe Management System web interface using HTML, CSS, and JavaScript.</li><li>• Implemented user-friendly layouts and responsive designs to ensure a seamless experience across devices.</li><li>• Created interactive pages for menu display, order management, and customer navigation.</li></ul>         |          |
| <b>Smart Parking System With IoT And Web Integration</b>                                                                                                                                                                                                                                                                                                                                | Dec 2025 |
| <ul style="list-style-type: none"><li>• Developed an IoT-based smart parking system to monitor and manage parking slot availability in real time.</li><li>• Integrated sensor data with a web interface to display parking status and improve user accessibility.</li><li>• Implemented real-time data updates and user-friendly navigation for efficient parking management.</li></ul> |          |

## Certifications
